ACTS & CHARACTERS

Juggling, fire, stilts, LED Robot, LED Sabers, LED Staff, LED Glow Juggling Props, Mirror Man (on or off stilts), Uncle Sam on stilts, Circus Ringmaster on stilts, Pumpkin King Skeleton on stilts, ladder chin balance, and unicycle.

> **LED Robot:** stands just under 10 feet tall. With advance notice when booking, the suit's programmable center chest panel can display your company logo, and the LED colors on the entire suit can be programmed to your brand colors or event theme. The suit, LED Staff, and LED Sabers can also be set to one solid color; party-favor glow sticks flash and can't be changed.

SPACE & TECH REQUIREMENTS

- Adaptable to indoor and outdoor spaces. A juggling show needs a **10 × 10 ft** area with **10 ft** of overhead clearance. Outdoor events have no height limit.
- Stilt acts, including Mirror Man: a **9 ft ceiling** works and **10 ft** is preferred. The LED Robot (just under 10 feet tall) needs at least a **10 ft ceiling** indoors.
- Fully wireless, battery-powered sound and LED props — no outlet needed. Your DJ can provide music, or Chris can bring a Bluetooth speaker.
- Setup usually takes **15–20 minutes** (minimum 10).

BOOKING

- All experiences start at **$475**. Book 4–6 weeks ahead, or 2–3 months ahead for October and the November–December holiday season. Last-minute requests are welcome if the date is open.
- A **50% non-refundable deposit** holds the date; the balance is due 1 day before the event. If you cancel 30 or more days out, the deposit can be used as credit toward a new date within 6 months.
- Payment: Zelle, Venmo, cash, check, or credit card via a Square link (7% fee on the service total). Schools and corporate clients may use a purchase order; the 50% deposit is still required.
- Chris typically responds within 24 hours, often the same day. A performer rider is available on request and is sent with the invoice and agreement.
